Sunita Deshmukh | Cervical Cancer Scenario

Fictional source document. This PDF is a test input for document ingestion, extraction, classification, provenance and verification. It is not a real medical record and must never be treated as one.

Field	Value
To	CCA Oncology Centre
From	Dr. P. Joshi, Gynaecologist, Lakeview Women's Clinic
Patient	Sunita Deshmukh, DOB 14-Apr-1975
Date	01-Sep-2026
Reason	Postcoital bleeding for 3 months; cervical biopsy showing malignancy.
Note	Please evaluate the endometrial mass and advise oncology management.
Attached	Cervical biopsy report, HPV test, pelvic MRI report.
Important QA note	The single phrase 'endometrial mass' above is intentionally incorrect. All authoritative diagnostic evidence in this scenario is CERVICAL, not endometrial. The system should preserve the source and flag the discordance rather than silently editing it.
