Arjun Verma | Lung Cancer Scenario

Fictional source document. This PDF is a test input for document ingestion, extraction, classification, provenance and verification. It is not a real medical record and must never be treated as one.

Field	Value
To	CCA Oncology Centre
From	Dr. R. Kulkarni, Pulmonologist, Horizon Chest Clinic
Patient	Arjun Verma, DOB 03-Jun-1968
Date	01-Sep-2026
Reason	Persistent cough with streaky hemoptysis for 6 weeks; outside CT shows a right upper lobe mass.
Note	Please evaluate the left lung mass and advise oncology management.
Attached	Outside CT chest report, bronchoscopy biopsy report, molecular panel.
Important QA note	The single phrase 'left lung' above is intentionally incorrect. All authoritative diagnostic evidence in this scenario is RIGHT-sided. The system should preserve the source and flag the discordance rather than silently editing it.
